

ICLights™
PRECISION LIGHTING SYSTEMS

**PAINTING
WITH LIGHT**

NOTHING CREATES A DISTINCTIVE ENVIRONMENT MORE EFFECTIVELY THAN A WELL-DESIGNED LIGHTING SYSTEM.

Beautify your room. Build drama. Highlight art or architectural features. Create a great home theater lighting system that eliminates glare on the screen, but allows you to read a book while your partner watches *Gone With The Wind* or *Rocky IV*.

A LOW-VOLTAGE LIGHTING SYSTEM SAVES MONEY.

You can save 50% or more compared to lighting with incandescent bulbs. A properly engineered lighting and control system will use less power and provide better lighting.

IC LIGHTS' HALOGEN TECHNOLOGY AND DESIGNER STYLE PROVIDE A PALETTE FOR PAINTING WITH LIGHT.

Use pinpoint spots to illuminate art. Mix and match beam spreads with narrow spots and wide floods. Add sconces for ambient lighting to create exactly the effects you want. Not only is the lighting dramatic, but the fixtures themselves add the look of sculptured jewels to your room. Performance and style is what IC Lights is all about.

ICLights™
PRECISION LIGHTING SYSTEMS

BILINE CABLE. A unique surface-mount lighting system limited only by your imagination. A pair of stranded cables carry low voltage current and support the vast selection of beautiful fixtures. Ideal for spanning an open space or lighting a challenging location.

LITEDROPS. Five different light canopies can be surface or flush mounted on the ceiling or wall. All of our UniLight fixtures and/or pendent combinations can be fed from these precision canopies.

THE FIRST STEP IS TO SELECT THE RIGHT MOUNTING OPTION FOR EACH ELEMENT IN YOUR LIGHTING SYSTEM.

We offer a variety of light systems that make it easy to create your own unique lighting environment. LiteRail, BiLine cable, LiteDrops, Sconces, and Recessed lighting systems provide a treasure chest of application options.

RECESSED FIXTURES. Replace your old 6" recessed cans with smaller aimable 3" & 4" diameter low-voltage fixtures. Pre-construction or retrofit type cans are available. Trim options include a large variety of styles, finishes, and colors.

LITERAIL. Replace your clunky old track lighting with these elegant slim rails. The LiteRail system can be ceiling or wall mounted, shaped in custom curves, or hung from cable or matching stems.

Using the ideas shown here you can create your own personalized lighting system for every room in the house. Start with your living room, or maybe the great room. Every room in your home will look better with IC Lights.

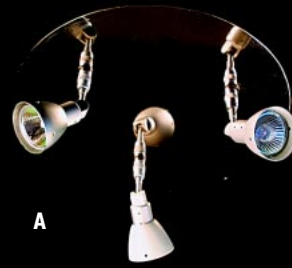

CHOOSE YOUR MOUNTING OPTIONS

LITEDROP FIXTURES. Designed for wall or ceiling mounting in place of conventional fixtures. Available options for every room.

LITERAIL FIXTURES. High-style lighting fixtures designed for installation with our LiteRail track system.

ONCE YOU HAVE SELECTED YOUR MOUNTING SYSTEM, IT'S TIME TO DECIDE ON THE LIGHTING FIXTURES. ALL FIXTURES ARE PRECISION MANUFACTURED TO OUR HIGH STANDARDS.

BILINE FIXTURES. A series of dedicated lighting fixtures designed exclusively for use with our BiLine cable system. Elegant, stylish, and whimsical. BiLine fixtures add drama to even the most difficult applications, such as spanning broad open expanses!

UNILITE FIXTURES. An innovative system that crosses new boundaries in lighting design. Each of these universal fixtures can be used with our LiteRail, BiLine, or LiteDrop systems, giving you total creative freedom in your lighting design.

Let your imagination run wild with an array of fixtures for every style and function. Whether your tastes run to the utilitarian trapeze or the whimsical high style whip, there's an

IC Lights fixture for every application. This page shows just a sample of the available fixtures. Many styles are available in a range of finishes including nickel, brushed nickel, brass, and

penny. Choose fixtures for highlighting art, lighting a dining room table, concentrating a spot of light on your favorite reading chair, or creating just the right mood.

NOW THE FUN BEGINS. IT'S TIME TO SELECT THE BULBS, SHADES, DECORATIVE HOODS, AND ACCESSORIES. HERE'S A COLORFUL PALETTE FOR PAINTING WITH LIGHT.

The sky is the limit. Choose the bulb and fixture elements that concentrate a beam of light, or one that paints the wall with a soft wash of light. Lights that glimmer like jewels, available in nearly every color of the rainbow. Hoods and globes, tulips and clam shells. Solid shapes

that contain the light. Perforated shapes that release patterns of light. Glass comes in clear, colors, frosted, mirrored. Metal is available in nickel, brass, penny, black, white, matte nickel. You can use these beautiful light pieces individually or combine them to create unique looks.

Bulb supplements like color filters, diffusers, barn doors, glare louvers and others provide you the ability to fine tune your lighting. Visit your local authorized IC Lights retailer and see for yourself the beautiful lighting systems you can create.

CHOOSE YOUR
LIGHT STYLES

RECESSED FIXTURES. Special needs require special fixtures. Want to light your art, wash a wall, or light a pathway? With our selection of recessed fixtures, the solutions seem limitless.

SCONCES. Great looking metal triangles & half moons, or stunning glass sconces.

BULBS. From the new IRC technology to our color pops, we offer a wide selection of beam spreads and wattage.

TRANSFORMERS. High-quality toroidal and electronic transformers that can be hidden or surface mounted.
